Dear Professor Chiranukrom and Ms. Lertanan,

Greetings from the Harvard-Yenching Institute!

Attached please find a letter from Harvard-Yenching Institute Director Elizabeth Perry, inviting your institution to participate in the HYI Visiting Scholars Program by nominating up to 4 faculty members. Nominated candidates will continue to apply online.

Later this month we will send a separate invitation letter for the Doctoral Scholarship Program, which provides candidates the funding to pursue a Ph.D. at the National University of Singapore, with a year of dissertation research/writing at Harvard University.

In addition to the Visiting Scholars Program invitation letter, I have also attached:

1. A summary of how the online application system works [About the online application system.PDF]
2. A Sample application form, in case you find it useful when conducting an internal review to select candidates. (Use of this form is optional. Once you have decided which candidates to nominate, they should apply online.)
3. A form for institutional approval, to be signed by the head of your office and uploaded to the online system by your office.

In the coming months, HYI staff will be available through online meetings with our partner universities' international office staff and interested faculty to provide info sessions and share updates. Information about these webinars can be found in the invitation letter and [on our website](#). We hope that partner university staff can join the May webinar (morning of May 25 in Asia). Potential applicants at your university are welcome to join our info sessions on June 7 or August 30. Please visit our website for information on how to register.

Please reply to confirm that you have received this message, and please let me know if you have any questions. As always, thank you very much for your cooperation.

Sincerely,
Lindsay
